Subject: Toxicity Assessment Request on Perchlorate Salts

Date: October 9 1992

Per our telephone conversation, I am enclosing the toxicity assessment Aerojet General has prepared on perchlorate salts. My interpretation of this data is that there is insufficient information to reach conclusion on the carcinogenic or chronic systemic toxicity of these salts. I would appreciate you conducting a literature search and evaluating the current data on these compounds.

If you have any questions regarding my comments, I can be reached at (415) 744-2310.
